

## AIPAC OUT OF US POLITICS: PETITION

Poll after poll has demonstrated that American people do not want the U.S. to fund Israel's crimes. But through intimidation and endless spending, AIPAC silences dissenting voices in Congress and creates an environment where criticism of Israel is criminalized and repressed.

It's time for politicians, lawmakers, media personalities and other leaders to act. It's time to reject Israel and AIPAC's influence on US politics, media, and spending.
