Reject AIPAC's Influence

 **AIPACout**

AIPAC OUT OF U.S. POLITICS!

The American Israel Public Affairs Committee (AIPAC) has spent over **\$100 million** in recent US elections to support blindly pro-Israel candidates while **targeting lawmakers** who oppose Israel's genocide in Gaza and put the needs of working people first. In this way, AIPAC wields **immense influence over both foreign and domestic U.S. policy.**

AIPAC and Israel's outsized influence on our politics has gone unchecked for far too long. **It threatens free speech, devastates workers' economic interests, promotes endless wars, and sabotages international diplomacy**—all at the cost of the American people.

U.S. politicians must **reject AIPAC funding and represent their constituents, not Israeli interests.**
